PIANO & KEYBOARD
CLASSES

MONTHLY PROGRAMME

ANNUAL COMBINED MOTIVATION PROGRAMMES (CAMPS)

SPECIAL CLASSES FOR STUDENTS AGED FROM 4 TO 7 YEARS

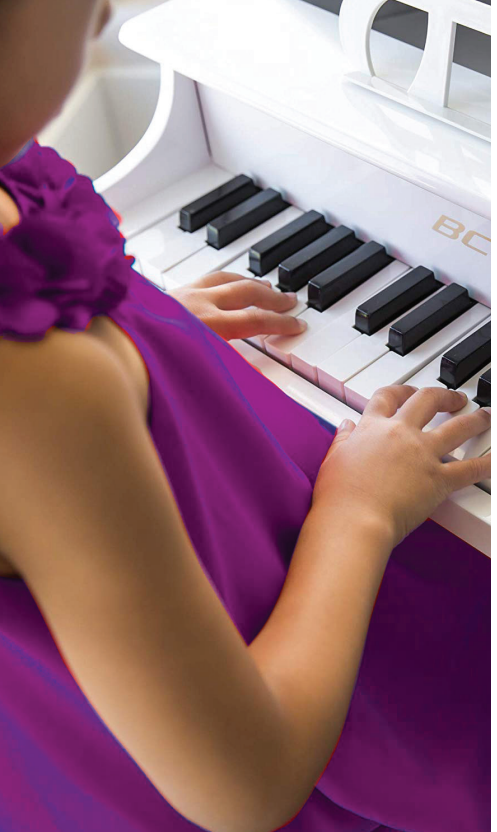

Monthly Programme

Annual Combined Motivation Programmes (CAMPS), during the month of April 'PRANAVAM the school of piano' used to conduct an intense one month CAMP on Piano for its students. Only a maximum of 25 selected 'PRANAVAM' piano school students, will be allowed to attend these CAMPs. Power point Presentation and paper submission are also included in this session.

Combined Annual Motivation Programmes (CAMPS)

'PRANAVAM the school of piano' regularly conduct the stage programmes. The students can overcome their shyness to perform in front of a gathering through these Monthly Stage Programmes. Through these programmes parents are also getting an opportunity to assesss their child's progress in piano studies

Special Classes for students aged from 4 to 7 years

It is noted that very small children, who start studying piano grasping the subject quickly and excelling better in piano, than who are joining at a later stage. But, it is difficult for a teacher to give instructions to very small students at the age of 4.
A homely atmosphere with parents co-operation is required in such cases. So, in 'PRANAVAM the school of piano', either of their parents are allowed to sit with the small students during the class hours, until they become self reliant on piano or upto the age of 7.
